

3M SINGLE SIDED TAPES

3M Single Sided Tapes gives the high quality finish and assured. The protective tapes guard the products against damage with no need for costly cleaning or reworking.

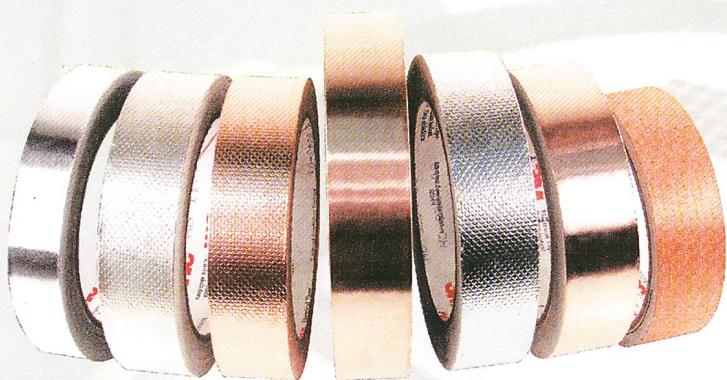

3M VHB TAPES

3M VHB Tape's all-acrylic construction seals against moisture and most solvents, providing long-term resistance to UV and temperature cycles.

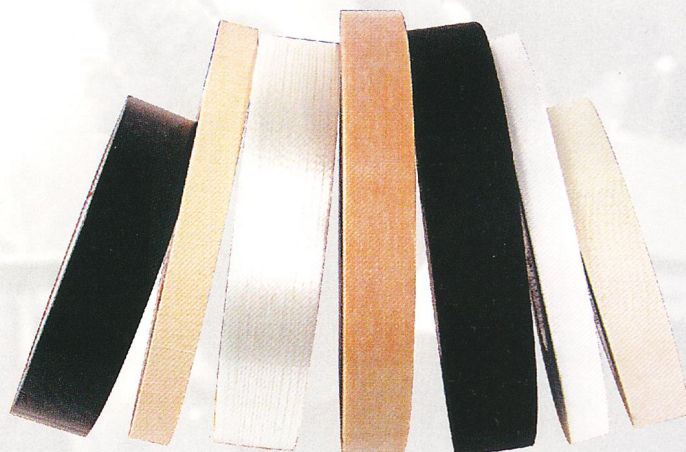

3M DOUBLE COATED TAPES

3M Double Coated Tapes are engineered with adhesive on both sides of paper, film or tissue.

3M EMI SHIELDING TAPES

3M Scotch Foil Shielding Tapes are designed for applications requiring reliable point-to-point electrical contact, particularly EMI Shielding, grounding and static charge draining.

3M ELECTRICAL TAPES

3M Electrical Tapes are made from a broad range of backings and adhesives to meet the requirements of different applications and environments.

3M POLYIMIDE FILM

Tapes with polyimide backing can be used in applications, such as masking, coils, harnesses and capacitors that undergo extreme temperature variations.

3M ANTI-STATIC UTILITY TAPES

3M Antistatic Utility Tape represents a breakthrough in PSA tape technology which generates less than 50 volts on unwind and removal from stainless steel, helps prevent ESD damage to sensitive electronic components in manufacturing environments.

DIE CUTTING

We provide complete die cutting & lamination services which customized to your requirements from single / double sided tapes, foam, polyester, rubber and etc.

3M BUMPON PROTECTIVE PRODUCTS

3M Bump-on Protective Products are pressure sensitive adhesive-backed polyurethane products that can be used as feet, stops, spacers and protectors.
