

### 3M WRIST STRAPS

Wrist Straps can dissipate static before it may damage printed circuit boards and components.

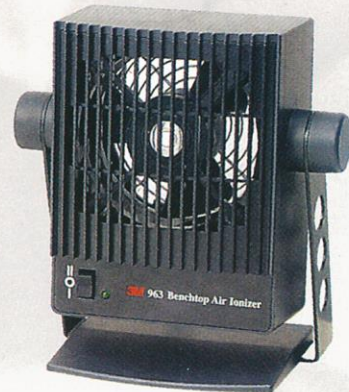

### 3M CONDUCTIVE FLOOR MAT

The main purpose of a conductive floor mat is to remove static charge from personnel as they approach work areas.

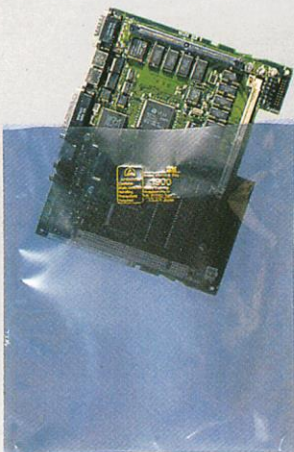

### 3M CONDUCTIVE TABLE MAT

3M Conductive Table Mat are able to remove static charge from personnel and conductive objects on work surfaces for optimum performance.

### 3M AIR IONIZERS

3M Air Ionizers with ionized air to help prevent static from damaging sensitive electronics.

### 3M STATIC SHIELDING BAGS & MOISTURE BARRIER BAG

3M Static Shielding Bags are designed to meet the demanding static shielding requirements in the electronic assembly and disk drive storage markets.

3M Moisture Barrier Bag has been designed to meet the demanding moisture protection needs of the electronics market.
